

# Make your practice more productive with Unishippers and UPS®.

Unishippers and UPS are the shipping team you can count on to provide more of everything you need to efficiently manage time and money.

With nearly **25 years of experience**, Unishippers knows what it takes to provide the right solutions and service for law firms. And with more than **50,000 customers** across the country, we have the ability to provide every customer with **low rates** normally available only to large volume shippers.

Couple that with our **local, personalized customer service, flexible billing options** and **state-of-the art shipping tools** and you have the best possible solution for your firm's shipping needs.

Plus, our relationship with UPS gives Unishippers customers the most choices for their express shipping needs with more express options than anybody else in the industry. With an unsurpassed global transportation network and unrivaled experience, you can rely on UPS to provide the most flexibility and peace of mind possible.

**We're the shipping company that works for you.**

# Unishippers and UPS can simplify operations through your firm.

## Legal Administrators and Paralegals

### Manage time more effectively

Meeting document production deadlines requires rapid response. Shipment preparation should be fast and easy and with status information readily available to quickly answer client and counsel requests.

Our online express, ground and international shipping tool, Express Manager, makes shipping your UPS letters and packages even easier. With Express Manager, you can:

- View your discounted rates for various service levels before you ship
- Create, view, edit and track shipments from one easy location
- Create sub-accounts with user names and passwords for each
- Sort, store and manage contacts in one address book
- Create groups of contacts with shipment data to quickly generate waybills
- Create detailed reports and much more!

Plus Unishippers customers have access to a variety of UPS software tools and options that can simplify shipping management such as WorldShip®, Quantum View Notify®, and Quantum View® Manage.

## Finance and Accounting

### Flexible billing and payment options

General billing and payment management can be one of the most complicated aspects of shipping.

With Unishippers, billing and payment management is made simple. No matter how many users you have, you can use reference codes in Express Manager to allocate shipping expenses.

Second, simplify your payments with Unishippers flexible invoicing options. We don't subscribe to the theory that one corporate solution should work for everyone. Your shipping needs are different, and your payment needs probably are as well. That's why we offer a variety of customized invoices that's right for your firm.

## Office Management and Mail Services

### Satisfy shipping needs easily

Getting the firm's shipments delivered on time is critical, even when you're working late and documents aren't ready until after hours.

An extra team that knows your firm's business helps. Unishippers consultants are shipping experts ready to provide you with local customer service. In addition, UPS's one-driver advantage means you get a single driver who handles all your ground and air packages for both pickups and deliveries.

UPS's access points also provide many options for late-night documents and packages that can't wait until the next day. UPS On-Call Pickup® and UPS Drop Boxes also offer reliable access when a regularly scheduled pickup doesn't meet your needs.

With more guaranteed deliveries around the world than any other carrier, UPS reliability means shipments get where they need to be, when they need to be there.

**UNISHIPPERS**  
THE SHIPPING COMPANY THAT WORKS FOR YOU.®

Anyway. Anyhow. Anywhere.

# Get more of what you want, including savings, with Unishippers and UPS.

## More Choices

Thanks to our relationship with UPS, Unishippers customers have more choices when it comes to express and ground services. In fact, nobody offers more express delivery options than UPS. And with guaranteed delivery to more than 200 countries and territories, and 60,000+ drop-off locations around the country, the conveniences really add up.

## More Savings

Unishippers uses the combined shipping volume of all of our customers to negotiate the best possible rates. In fact, Unishippers saves customers an average of 20% on all of their shipping needs.

## More Service and Flexibility

Each Unishippers office is staffed with a team of local experts who can provide the personal service that has made Unishippers a trusted partner for over 50,000 businesses nationwide. Unishippers provides "national account" treatment to all of its customers. And Unishippers understands that legal firms appreciate greater flexibility, so we offer customized conveniences, such as one clear invoice for all of your shipping needs.

## More Resources and Tools

Unishippers also helps you save time and trouble with state-of-the-art shipping tools. You'll love Express Manager from Unishippers, the most robust and easy-to-use online shipping tool available. With Express Manager you can see your costs before you ship which means you can more easily manage your expenses and make better choices.

## More Peace of Mind

UPS delivers more packages on time. Shippers again rated UPS first among all carriers in "Service Reliability" for ground deliveries<sup>1</sup>. And that reliability is backed up by your Unishippers shipping consultant, who is always just a phone call away.

[www.unishippers.com](http://www.unishippers.com)

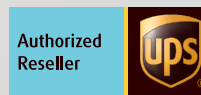

UPS delivers more  
guaranteed packages  
overnight on time in the U.S.  
than any other carrier.

## The UPS Advantage

As one of the largest and most respected brands in the world, UPS offers these unique advantages:

- **More domestic express delivery options** – and more early business deliveries than anyone else, so you get more choice.
- **One driver** who understands your business will pick up and deliver all your air, ground and international packages, so you get more convenience.
- **One low fee** per-pickup request, not per-package no matter how many packages you have, so you get more value.
